

Ride the updraft of awakening!

Are you one of 7 beautiful souls called to experience a spiritual retreat on one of the most powerful portals on the planet?

Join us for 5 magical days on the Big Island of Hawaii for a feast of deep dives and joy-filled adventures.

Throughout the retreat you experience

- Potent and precise energy work tailored to the needs and readiness of your mind, body and spirit
- Excursions out into the transformative energies of the island, from the power of the sea to the beauty of the flowers and sky to the catalyzing fire of the magma beneath your feet.
- Channeled wisdom messages and healing sound alchemy
- Traditional medicinals of edible flowers and tonics sourced from the local land
- Lucid dreaming and soul journeying
- A life-transforming ceremony of Hawaiian melukat with purifying waters from the island and sacred temples in Bali along with traditional Hawaiian ceremonial ti leaves and sacred flowers - a cascade of liquid light and beauty carrying a multidimensional wave that is beyond your imaginings
- And a huge space of endless love.

This light-lovers retreat is the next unfolding of your soul journey as you immerse in energy upgrades, conscious dream journeys, sound ceremonies, wisdom channeling, ocean play, island adventures, laughter, and luminance.

The tropical climate helps everything in you to relax, soften and open. The catalyzing energies help accelerate all you wish to receive and

actualize. The inter dimensional spaces partner with you in profound and revelatory ways, ushering you into liminal spaces where you discover more of your human gifts, cosmic codes and quantum abilities.

Places matter, and this is one of the most amazing, grace-filled spaces in the world.

Here you increase your light quotient and fine-tune your knowing as you become one with your highest wisdom and deepest source.

One person described the daily energy work as being *“like internal art that you feel.”*

Here’s what another participant shared:

“In my travels toward this retreat I was unloading. I was letting go of fear and panic on my flight. When I landed and had my feet on the ground I felt like all was going to be ok. I had no agenda except to be present.

The first day was a beautiful greeting. The second day was a day of introduction to the sea/ocean. I entered the water and thus my initiation began. It was a rough encounter. It began the exploration of my fears, what I was holding onto and what I needed to let go.

Christine never left my side during this process. She held me in her arms, in her loving presence and energy. She acted as friend, as guide, as priestess of the energies that she was holding for me and for all of us.

This is a spiritual retreat, where you enter as one person and leave as another. I cannot emphasize the spiritual aspect of this retreat enough. You let go of the unwanted and welcome the new. There are so many wonderful aspects and tiny treasures for you to receive.

You will want this. You will all want this.” - Dr. Lesley Wood

I see the most beautiful potentials in each person reading this. I see how perfect, whole, and complete you are right now, and also how you love yourselves so much that you wouldn't want to miss a perfect choice to expand...into what is next, into deeper levels of freedom, love, healing, and joy.

I can't wait to be with you September 6-10!

All Love,
Christine
